KYRGYZSTAN CELEBRATED
THE DAY OF STATE FLAG

On March 3, Kyrgyzstan celebrated the Day of State Flag. The mayor of Bishkek, the capital of Kyrgyzstan, Aziz Surakmatov noted that one of the main symbols of the state - the Kyrgyz flag turned 28 years old.

“On this day, March 3, the flag of Kyrgyzstan soared high into the sky for the first time. Its color is similar to the flag color of generous Manas. The flag is our national pride and a symbol that gives rise to a sense of responsibility, patriotism and love for the Fatherland in the heart of every Kyrgyz citizen,” A. Surakmatov said.

The press service of the President of Kyrgyz Republic announced the congratulations of Sooronbay Jeenbekov.

“Congratulations on the State Flag Day of the Kyrgyz Republic! The State flag is one of the attributes of sovereignty of our state, a symbol that reflects patriotic feelings for the homeland of each of us. The national flag shows the unity of people of Kyrgyzstan. Since the time of great Manas, our flag has been handed down from generation to generation as a symbol of freedom. Holding sacred the legacy of our ancestors, we must live in harmony under our flag. The sacred duty of each of us is to carefully preserve and raise our flag high. May our flag always proudly fly in a peaceful sky, our Kyrgyzstan prosper and develop. May the God protect our beloved Kyrgyzstan,” the congratulation states.
A single industrial railway company has been established in Turkey. The decision, signed by Turkish President Recep Tayyip Erdogan, was published on April 4 in the official gazette of the government.

The following subsidiaries of the State Railways of Turkey (TCDD): Türkiye Vagon Sanayii AŞ (TÜVASAŞ), Türkiye Lokomotif ve Motor Sanayii AŞ (TÜLOMSAŞ) and Türkiye Demiryolu Makinaları Sanayii AŞ (TÜDEMSAŞ) are united in a single industrial railway company Türkiye Raylı Sistem Araçları Sanayii AŞ (TÜRASAŞ).

TÜRASAŞ will operate under the Ministry of Transport and Infrastructure of Turkey. The central office will be located in the capital of Turkey, Ankara.

Legal entities TÜVASAŞ, TÜLOMSAŞ and TÜDEMSAŞ will cease their activities after registering TÜRASAŞ in a single trade register.

All rights and obligations of these legal companies, real estate and immovable property, personnel, vacancies and positions remaining will be transferred to TÜRASAŞ.

The company reorganization process will be completed within 3 months. The CEOs of TÜVASAŞ, TÜLOMSAŞ and TÜDEMSAŞ were abolished.
YEDI WILL INVEST IN KAZAKHSTAN STARTUP

The York Enterprise Development Institute (YEDI) has decided to invest in Kazakhstan's FineFlot startup.

A start-up business offers mining companies special equipment and technology to increase the extraction of valuable finely dispersed minerals from the tailings of mining operations. In fact, this is a technology for the extraction of valuable minerals less than 50 microns in size from ores of non-ferrous, noble and rare-earth metals, most of which are usually not captured by the world mining equipment and are disposed of as wastes, that is, into tailings.

After FineFlot conducts industrial tests, the company plans to attract additional investments in large quantities.

To date, work to obtain necessary certificates and patents is underway. Places in the special economic zone in Almaty were allocated for them.

YEDI is a leading university business accelerator in the world.
According to the report of the administration of Samarkand region of Uzbekistan dated March 5, Kazakhstani Tenge Bank, which has been operating in the financial market of Uzbekistan since 2019, intends to open a branch in Samarkand. It is also planned to establish a branch of the bank in Ferghana.

The first representative office of Tenge Bank was established in Tashkent, today it serves legal entities and entrepreneurs. A strategy for the next three years has been already adopted, according to which the bank intends to open a certain number of branches in Uzbekistan.

Samarkand was chosen to open the first branch, as it is a densely populated region where entrepreneurs with a good reputation run their business.

Tenge Bank’s CEO Aslan Talpakov discussed conditions of branch operating in Samarkand with the Mayor of Samarkand region Erkinjon Turdimov.

It is planned that Tenge Bank will start to work in Samarkand in summer, as soon as the issue on premises for the branch is resolved.
AZERBAIJAN WILL PRODUCE A BUSINESS-CLASS CAR

According to Emin Akhundov, CEO of Azermash OJSC, mass assembly of business-class cars will soon begin at the automobile plant in the Neftchali industrial region.

As E. Akhundov has announced, the price of new cars will start at 40 thousand manats: “In the near future we will introduce a new model KhazarCC. This is a business class model equipped with the latest devices, with an automatic transmission. We have already produced 30 units of Khazar CC, the cost of which, depending on the modification, will be in the range of 40-45 thousand manats. Our competitors offer cars with similar equipment at a price of 56,000 manats”.

The Neftchali industrial region, located 150 km south of the capital of Azerbaijan, plays an important role in the development of the country's economy.
On February 27, Google Russia announced that the Google Translate web service added new languages for the first time since 2016, including Turkmen language.

Five languages were added to the online translator: Turkmen, Tatar, Uyghur, Kinyarwanda and Odia. These are the first languages added to Google Translate in the last four years. Now 108 world languages are available for translation. However, it is not specified when translations from Turkmen language will be available.

Google Translate is Google’s web service designed to automatically translate part of a text or a web page into another language. Every day, more than 500 million Internet users use Google Translate to simplify communication process and to have access to information in other languages.

So, the new version of Apple’s iOS 13 has introduced Turkmen keyboard for the first time. The new version of iOS became available for download on September 19 after the official presentation of Apple.
